

Rother Voluntary Action and Sara Lee are looking for participants

Back to work after cancer?

The return to work is often a long and bumpy course.

With **I-KNOW-HOW** we want to facilitate people with cancer to remain in or return to work.

Together with employees, employers, job coaches and healthcare professionals we developed different tools.

For the first test of this online tool, we are **looking for:**

- people with cancer, who are currently on sick leave or who have recently returned to work
- people who employ those with cancer.

In a short online meeting we will introduce you to the digital tool and will ask you for your feedback and help.

Your help is valuable!
